

EASY TOUR - duration about 3 hours

ÖKB - PANORAMAWEG (round - footpath via Ursprung)

The footpath starts at the tourist - information, leads along the Abbe- Stadler- Lane to a crossing with traffic- lights and then straight on to the end of the Rossegger- Street. Now you have to go up the Himmelreich- Street and over the pedestrian crossing into the Spielberger- Street; keep to the right until you come to the traffic- lights at the building- market Schubert going on to Spielberg. Go along to the foot- bridge over the river Pielach, pass the soccerfield and the building of the local brass band.

Turn left into the Pielachberger- Street, at the next crossing right along the village of Pielachberg and then turn left and go up in the direction to Brackersberg (464m). Following the "Steinwandweg S2" you reach 3 birch- trees after 20 min. Here you've got a wonderful view to neighbouring mountains and sights (e.g.: the monastery of Melk) and you can have a rest there, too.

Then the small asphalt road turns into a country- lane; after 1km you have to keep right. Go down to Ursprung at the crossing. Passing the first houses you come to Lord Haberl's country inn. Going back to Melk keep to the right. It's the upper way. Along that country- lane you come to a place, where you can have a rest. Watching the sunset from that point is brilliant. Keep right at the end of the Kronbosway , turn left into the Kindergardenstreet till you come to the hall of the brass-band again. Go along the old- known way until you reach the Glockenturmstreet. Turn left to the Pielacherstreet and go over the pedestrian crossing at the roundabout following the Wienerstreet leading back to Melk. Lefthandside to the big department stores you can relax in the Panoramarestaurant at the open- air bath of Melk.

The Kameradschaftsbund of Melk wants you to have a wonderful walking-tour, fine weather and brilliant views.
